## DETAILED ACTION

### *Specification*

The disclosure should be carefully reviewed to ensure that any and all grammatical, idiomatic, and spelling or other minor errors are corrected.

### *Claim Rejections - 35 USC § 103*

This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

Claims 1-3 are rejected under 35 U.S.C. 103(a) as being unpatentable over WONG et al. (US 6,614,206). The reference discloses a universal USB charging accessory having, *inter alia*, a charging hub 600 having multiple female connectors including USB ports 601 and serial communication ports 500 for hosting, among different devices, a printer, a computer, a scanner, phone. See column 4, line 33 to column 5, line 65; Figures 6B, 8 and 9. It is however silent on the use of batteries within

the hub to make it more portable. It would have been obvious to one having ordinary skill in the art to have devised a self-supported hub to include rechargeable batteries for the purpose of convenience for a user employing a laptop computer to be able to use multiple accessories without the need to be wired to an exterior outlet.
